

BODHI TREE CHARLESTON presents the 2015 REIKI CLASS SCHEDULE

Reiki means Universal Life Force and is a powerful healing method developed by Dr Mikao Usui. The practitioner uses hand placements on specific areas of the body when performing a Reiki treatment. Reiki can address a wide variety of issues, physical, emotional, mental and spiritual. Most clients experience warmth from the practitioner's hands and a deep sense of relaxation and well-being after receiving a Reiki treatment. This year's focus is New Moon and Full Moon Classes, all workshops fall on or within the astrological "three day window".

The **Reiki Level I** classes are all New Moon Workshops; New Moons are a symbolic portal for new beginnings, this is a time to set an intention with powerful results. The **Reiki Level II** classes are Full Moon workshops; we harness the exuberant vibration of the moons fullness and anchor the Reiki energy in our life. Very meaningful people to step into our lives at this time!
